Casa Pura Vida

This beautiful super luxurious Spanish villa (rebuild in 2017) is located between Cala Carbo and Cala Vadella in the beautiful South-West part of Ibiza. The villa is situated in a very quiet area, has lots of privacy and offers both land- and seaview.

The Villa is tastefully designed and decorated with a mix of modern Ibiza & Bali style interior.

There are 4 bedrooms, all with air-conditioning and Sonos sound system. Two of the bedrooms have sea view and double beds. Two others with optional single or double beds.

The villa has 3 luxury bathrooms with rain showers. The master bedroom has an outdoor bath and double rain shower.

In the living room you will find a super relax lounge sofa with a 62" television with satellite decoder and dvd player. There is a professional 5.1 dolby surround sound system to get the real cinema feeling including DVD collection. The professional VOID sound system includes a sub speaker and speakers in living room, kitchen, sleeping rooms, poolside and rooftop area. Using Spotify, Ipod, cd and radio is all possible for this high end sound system. You will also find the cosy fireplace here for nice evenings with a glass of wine.

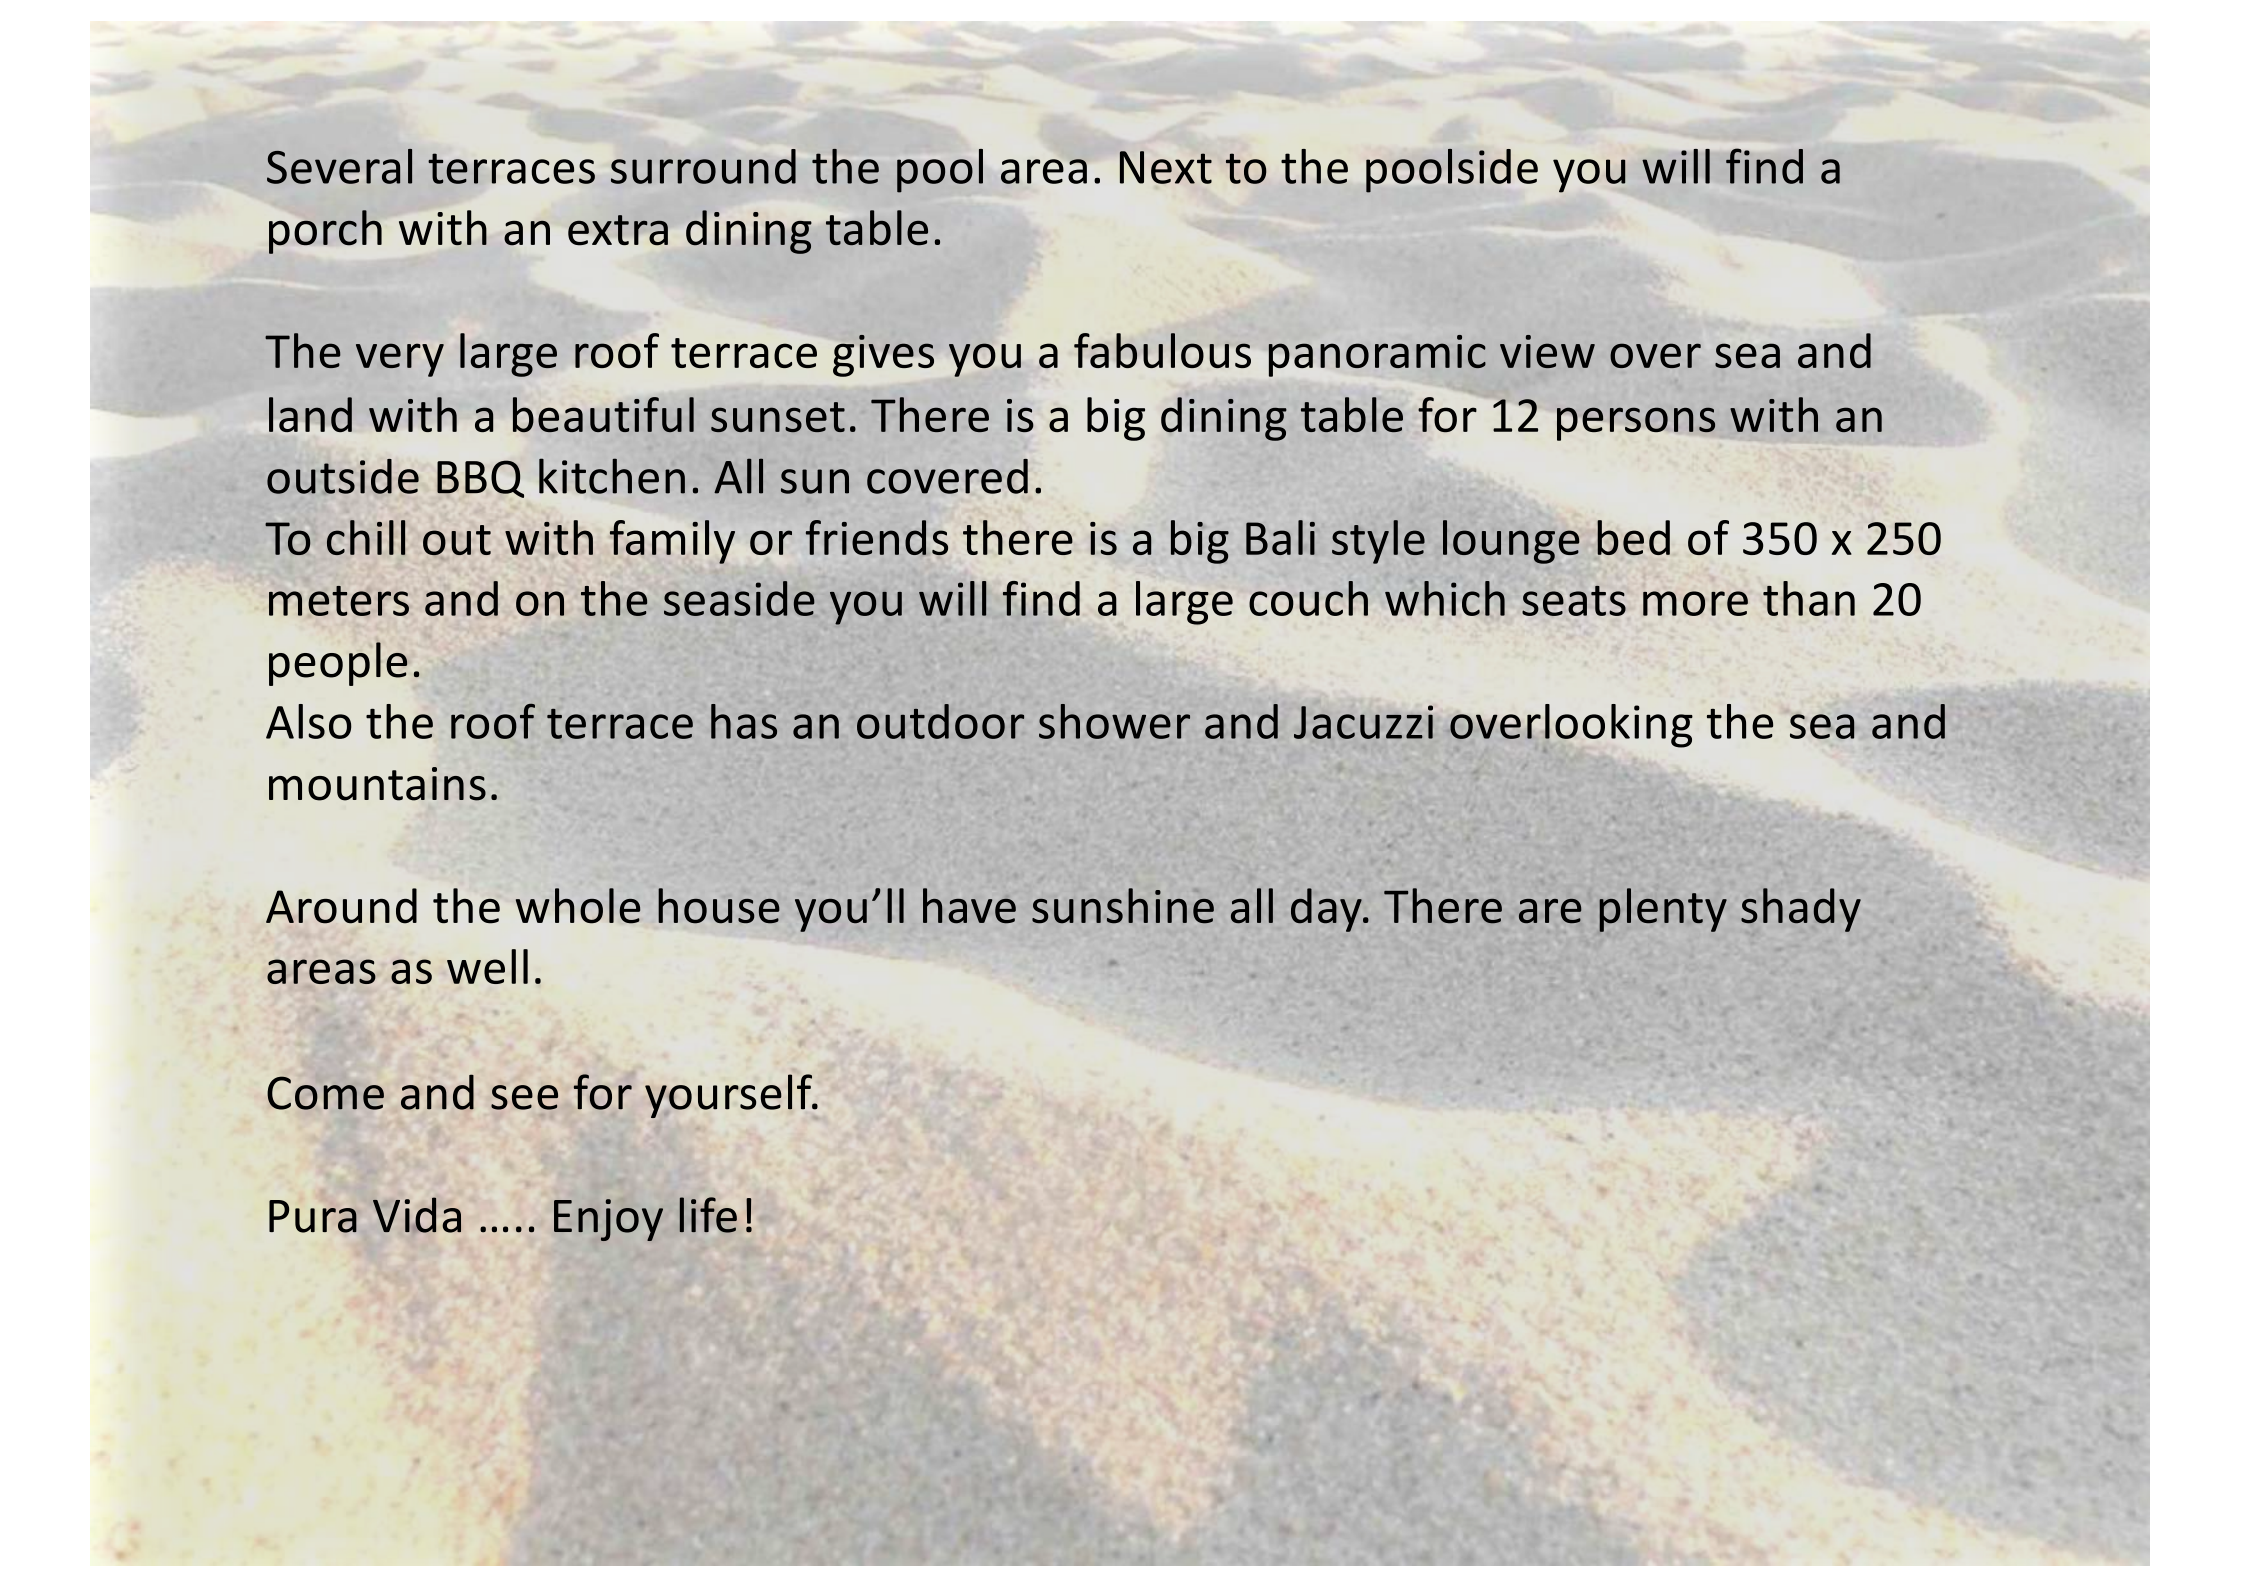

All floors are heated in winter time and have cooling function in summer time. Both the heating and power system work by solar panels. The house is totally “green” supplied. The latest technology of water and heating system by Daikin are installed.

The spacious open kitchen is fully equipped with large gas stove including special fish and Japanese ‘Teppanyaki’ burners, big oven, 2 dishwashers, slow juicer, mixers and spacious fridge. There is a fresh filtered water system, so no need to buy lots of bottles of water and waste plastic. Also there is a gooker for directly boiled water.

The dining room is connected to the kitchen which has a big Bali style wooden table for 8 persons, overlooking the swimming pool and tropical garden. The garden is illuminated by night.

The swimming pool area has big sunbeds with nice soft pillows and towels. A nice and cosy seating area is situated around the fireplace to enjoy long evenings. The big Balinese wooden Buddha is completing the zen atmosphere around the pool area and during sunset you will have a magnificent view on the “red coloured” hills. In the evening the trees around the pool are beautifully lit.

Several terraces surround the pool area. Next to the poolside you will find a porch with an extra dining table.

The very large roof terrace gives you a fabulous panoramic view over sea and land with a beautiful sunset. There is a big dining table for 12 persons with an outside BBQ kitchen. All sun covered.

To chill out with family or friends there is a big Bali style lounge bed of 350 x 250 meters and on the seaside you will find a large couch which seats more than 20 people.

Also the roof terrace has an outdoor shower and Jacuzzi overlooking the sea and mountains.

Around the whole house you'll have sunshine all day. There are plenty shady areas as well.

Come and see for yourself.

Pura Vida Enjoy life!
